【リスニング原稿】

In America, Japanese culture is very popular. For example, people know Japanese songs, anime and manga very well. Japanese culture is so popular in America that American people are interested in Japanese language classes. This is a story of a girl in a Japanese language class in America. On that day, 12 students learned Japanese in that class. They gave their examples. Next was her turn. She had to give an example, so she said, “My pants are broken.” All the classmates laughed. Because they thought her pants were really broken. But, pants mean “pants” and “jeans”. Of course, she means “jeans”. She said, “I mean jeans, not pants.” But students kept laughing. Her face turned red and she couldn't look at the students.

【解答】

(1) ① culture ② twelve ③ laughed
(2) ウ 彼女のパンツが破れていると他の生徒たちが思っていると彼女が考えたため。
